2019 UDVC MEMBERSHIP APPLICATION PACKET

Thank you for your interest in membership at the Utah Domestic Violence Coalition (UDVC). This packet details the requirements and many benefits of membership with UDVC.

Mission of the Utah Domestic Violence Coalition

Utah Domestic Violence Coalition (UDVC) is a private non-profit organization recognized nationally for providing expertise concerning issues of domestic and sexual violence to member programs, community partners and others in Utah. We advocate for the development of policies and practices that enhance victim safety and empowerment while raising awareness of the need for prevention and intervention.

A membership structure is utilized to ensure the voices of victims and local communities remain central to our work and mission. Membership is comprised of non-profit victim service agencies and other allied agencies across Utah. Coalition professionals provide technical assistance and training to member programs and community partners throughout the entire state.

As a 501(c)3 non-for-profit organization, Utah Domestic Violence Coalition is comprised of members from across the state and various disciplines and a Board of Directors who are **committed to creating a state where domestic and sexual violence are intolerable**. In addition to its purposes as a Statewide Coalition, **UDVC's Bylaws** ([available at udvc.org](http://udvc.org)) have identified the following as pertinent to Utah:

Educate: The Coalition will provide education to effectively address domestic and sexual violence as a critical social issue; suggest and support initiatives, including training, which are focused but not limited to providing effective empowerment-based domestic violence intervention/prevention services for victims and families; and programs and interventions for perpetrators that promote accountability for perpetrators and safety for victims/survivors. Domestic Violence, also known as family violence, interpersonal violence, and intimate partner violence, includes other forms of controlling and abusive behaviors, including sexual violence.

Advocate: The Coalition will advocate for state and federal appropriations to ensure the prompt availability and accessibility of services to residents of the State who are victims of domestic and sexual violence. The Coalition will strive to ensure that such services are delivered appropriately, in line with best practices on trauma-informed care and in a manner which preserves human dignity and which overcomes cultural, linguistic, and economic barriers to the receipt of such services. The Coalition will recommend and support regulatory and statutory change that strengthens protection for victims/survivors and the accountability of perpetrators.

Collaborate: The Coalition will lead a collaborative, statewide effort to eliminate domestic and sexual violence by addressing cultural oppression and marginalization to effect social change.

UDVC Membership Program

The UDVC seeks to collaborate with a variety of groups, including community based, culturally specific, faith-based service providers, housing services providers, federal, state, tribal, and local public officials/agencies, and to engage in dialogue with these groups to provide more responsive and effective services to victims of domestic and sexual violence and their dependents.

The UDVC also seeks to forge links with those organizations and individuals who support its mission and in particular but not limited to, those who serve/represent underserved communities, to increase awareness of the issues of domestic and sexual violence and to maintain communication with local communities and people in the State.
